

The Erasmus + **Social Entrepreneurship for Community Empowerment**, (SECE) project officially started in September 2020. Within a framework of this project, a consortium of six partner institutions will work together focusing on the concept of enhancing the employability of adults, by developing their competencies and skills for social entrepreneurship

THE PROJECT

The project is designed to create innovative open source training interventions and materials that integrate tools and methods for developing effective social entrepreneurship primarily through self-employment.

Its purpose is to provide a learning model and high quality learning materials for use by adult educators working with aspiring social entrepreneurs in order to contribute to the success of their social enterprises.
